Seoul International Co., offers complete range of Cables, Cable Assemblies and cords conforming to Military specifications, for demanding military, high-tech, high frequency and process electronics applications; where high temperatures will be encountered. MIL-Spec wires coated with PTFE have excellent, stable electrical characteristics with low power loss. We are also the vendor of choice for most Military-Spec assembly houses as we stock an extensive inventory of hard to locate custom cables for MIL-Spec applications. SIC can handle all of your cable assembly needs, from the simple cord to complex electronics cable assembly, from quick turnaround prototypes to large volume production. From cutting and stripping lead wires to value added turnkey assemblies, OEM or aftermarket, commercial or military, industrial or telecommunications, we have the experience, expertise and capabilities

CABLE ASSEMBLIES & CORDS FOR TACTICAL RADIOS
